## FAQ

- - Am I able to activate multiple X2 transponders, using the same X2 RaceKey?
  - The X2 RaceKey can store licenses from multiple X2 transponders. Only the X2 transponders with a corresponding license, stored on the X2 RaceKey, can be activated.

- - I am at a race now, but the subscription of my X2 transponder is not active, what can I do?
  - Connect your X2 transponder to your X2 RaceKey. To activate the X2 transponder, the X2 RaceKey must contain the license of your active subscription. Otherwise, renew the subscription in the MYLAPS webshop, and use MYLAPS Connect to move the license to your X2 RaceKey. Then you can connect the X2 transponder for activation.

- How do I see if my X2 transponder is NOT active?
  - When the X2 Direct Power transponder is installed in the vehicle, and the X2 RaceKey is connected. The subscription light on the X2 RaceKey will flash red (inactive) or green (active), after the initial display of various colors. Also, when the subscription is expired, the LED on the X2 transponder will be flashing RED fast (5 x per second). (Both for Direct Power and Rechargeable)

- I want to race, but I forgot my X2 RaceKey, can I still use my X2 transponder?
  - If your X2 transponder was already activated with your own X2 RaceKey, you can use other X2 RaceKeys to charge the X2 transponder. If your X2 transponder was never activated with your own X2 RaceKey, you must use MYLAPS Connect to move the license to any X2 RaceKey. Then you can connect the X2 transponder for activation.
